

Mini PCIe GbE

Connect Tech's MPG100 series boards are rugged, low cost Gigabit Ethernet Mini PCIe modules that are ideal for adding extra Ethernet capabilities to any system with minimal increase in overall system size and power consumption.

The modules utilize PCIe signaling which allows it to be used in any Mini PCIe socket that supports PCIe. The wide operating temperature, latching Ethernet connector and cabling solution allows these modules to be used in harsh environments.

Compatibility with a large variety of popular operating systems allows these boards to be easily integrated into a wide array of new and existing systems.

Product Names & Part Numbers:

Mini PCI Express modules
MPG101, MPG102, MPG104

FEATURES

- ✓ *Ideal for adding extra Ethernet capabilities to any system with minimal increase in overall system size*
- ✓ *Used in any Mini PCIe socket that supports PCIe*
- ✓ *Compatibility with a large variety of popular operating systems*
- ✓ *Easily integrated into a wide array of new and existing systems*
- ✓ *Extended Temperature Range -40°C to 85°C*
